DUT in Multimedia

Objectives

The DUT in Multimedia trains students to become professionals in the creation of multimedia products both online and offline and their marketing and implementation within a company.

They will develop the theoretical and practical skills required to become competent web design and development professionals.

The course

The degree course lasts four semesters. Students obtain 30 credits per semester which makes a total of 120 credits. Every semester the programme is organized around different teaching units (UE) which correspond to different modules.

Work opportunities

Students will be able to work in small businesses as well as big companies in sectors such as :

- Communication (assistant to a multimedia project manager, multimedia designer of products, head of communication, etc.)
- Creation (computer graphics designer, Internet website designer, multimedia director, etc.)
- Training (education, CD-ROM edition, distance learning, etc.)
- Computing and networks (network manager, integrator, developer, technology watch, webmaster, etc.)

Further studies

Engineering schools, bachelor's degrees, professional bachelor's degree...
